*(Several members of the public submitted questions for discussion by today's presenters from Holtec International)*

[Monday 12:13 PM] Ann Darling (Guest)

What is Holtec's ongoing responsibility for the casks at VY? for instance if a cask is damaged in transport or is defective ...

[Monday 12:15 PM] Lorie Cartwright (Guest) has temporarily joined the chat.

[Monday 12:20 PM] Ann Darling (Guest)

Do you see the DoE consent-based siting process now being developed as having any bearing on your proposed interim storage facility in New Mexico? We're particularly concerned that Holtec listen deeply to local Native and Latino communities who have already experienced a huge nuclear burden from uranium mining and milling, as well as nuclear weapons testing.

[Monday 12:27 PM] Ann Darling (Guest)

Why do these casks not require monitoring on a day-to-day basis? What makes that possible.

[Monday 12:27 PM] Ann Darling (Guest)

?

[Monday 12:28 PM] Schuyler Gould (Guest)

What does Holtec consider its financial responsibility for the waste? Will it maintain ownership of the waste throughout its transport to and storage at CIS?

Does it expect to use funds from the various decommissioning trust funds at the plants it is and will be decommissioning or from the federal Fund currently designated for permanent storage of HLNW?

Does it expect DOE to assume financial responsibility for any of these processes?

[Monday 12:32 PM] Katrina McMurrian has temporarily joined the chat.

[Monday 12:34 PM] Chris Williams (Guest)

In planning for the CIS facility in New Mexico was access to spent fuel for reprocessing contemplated by Holtec?

[Monday 1:04 PM] Chris Williams (Guest) no longer has access to the chat.

[Monday 1:12 PM] Kimberly Manzione (Guest) no longer has access to the chat.

[Monday 1:12 PM] Joy Russell (Guest) no longer has access to the chat.

[Monday 1:14 PM] Lorie Cartwright (Guest) no longer has access to the chat.

[Monday 1:27 PM] Leshinskie, Anthony

*(During discussion with members of the public present, Schuyler Gould noted that Texas Senator Ted Cruz has introduced a bill to Congress which would prohibit the use of federal funds for private interim storage of spent nuclear fuel until such time that a permanent repository is available to accept spent nuclear fuel. The bill's ID# is noted here.)*
